

Guess Topics For Board Exam 2025

1. Allotropes, Solubility
2. Solutions types suspension colloid
3. Solubility, Isotopes with uses
4. Electronic configuration/position of elements
5. Structure of ionic Covalent compounds+ anion, Cation
6. Transition Elements, Halogen Reactivity, Property
7. Periodicity of properties
8. Co-ordinate bond & intermolecular forces
9. Numericals of Mole mass & mole Particle Calculation
10. Balancing Equation, Ionic Equation, Binary ionic comp
11. Identification of oxidizing reducing agent Redox Reaction
12. Corrosion & prevention
13. Thermochemical Reaction + Numericals
14. Equilibrium reversible Irreversible Reaction
15. Bonded lowery Arrhenius Concept
16. Characteristic properties of Acid base
17. Global warming acid rain
18. Classification of Organic compound + structures
19. Functional Groups
20. Structural condensed dot and cross molecular formulas
21. Classification of Carbohydrate & table 206-207
22. Haogenation & combustion+ waterborne diseases
